NEWS VIA NEW YORK.

NEW YORK, May 2.—The Herald's special says: Mr. Bingham, of Ohio, will tackle the Reconstruction Committee, and will report, the first thing next Tuesday morning, a proposition to amend it so that it will conform to his views on the subject of the basis of representation. The Radicals believe they can easily make the Reconstruction Committee's report acceptable to the President, pass it in two days, and get Tennessee to ratify it, and admit her Representatives to Congress within twenty days.

The House Committee on Foreign Affairs, to whom was referred the Mexican loan and endowment scheme, are about ready to report, and will probably do so on Thursday. It is understood that all the Republican members of the Committee, with the exception of Gen. Banks, voted to report favorably upon its propositions.

The following appointments were made by the President to-day: Chief Engineer of the Revenue Service of the United States, Patrick Brennan; Deputy Postmasters—Henry W. Gash, of Macon, Ga.; Abraham Thompson, Delaware, Ohio; J. W. Patterson, Piqua, Ohio; J. G. Robinson, Bucyrus, Ohio; Charles B. Griffin, Newark, Ohio; Henry R. Thompson, Fremont, Ohio; Thomas McEwen, Sandusky, Ohio; Samuel H. Fletcher, Topeka, Kansas; Aaron H. Stephens, Nashua, N. Y.; and John W. Veeter, Schenectady, N. Y. Tinton Lindsay was appointed Receiver of Public Moneys in California. Twenty-two Assessors and Collectors of Internal Revenue in the Southern States were also appointed to-day, fifteen of whom were for Virginia alone.

The nomination of Daniel E. Sickles as Minister to Hague, was laid on the table.

The Committee also agreed to report a bill raising the rank of Ministers resident, to Envoy extraordinary and Ministers plenipotentiary, the pay to remain as at present.

Mr. Trumbull's amendment to the Post Office bill prevents the payment of any money for salaries of officers who are appointed during the recess of Congress, except in cases of death, resignation or expiration of term of office, has such strength in the Senate as to guarantee its passage in both Houses, either as an amendment to the Appropriation bill, or as a separate bill.

Horace H. Day's Niagara Ship Canal bill was to-day got through the House as a military measure. All the lands fronting on the river on the American side, for at least seven miles below the Falls, have been secured long ago by Mr. Day, in anticipation of the bill.

NEW YORK, May 2.—The Common Council has repealed the ordinance widening Ann Street.

Count Castiglione arrived on the steamer Scotia, on a mission from the King of Italy.

John Ross, stock speculator, Exchange Place, has been arrested for forgery. He had purchased \$50,000 gold each from Black & Spalding and J. S. Cronise, paying for the same by his own certified checks on the Continental Bank. His certificates proved to be forgeries. Ross is said to have forged the signature of A. S. Frier to two checks on the Union Bank for \$64,500 each, with certificate of the paying teller; and also two checks on Howes & Macy—amount not stated.

NEW YORK, May 2.—Ferdinand Busch was arrested, under warrant of extradition, for forgery at Mechenburg to the amount of 20,000 Prussian thalers. He arrived yesterday on the Louisiana, and the officers in pursuit came on the Scotia.

The coffee and spice mills of Jackson & Fickert, on Fulton Street, were burned last night. Loss \$23,000; partially insured.

NEW YORK, May 2.—The special of the Post asserts that some of Mr. Stanton's friends deny that he took ground in the Cabinet meeting yesterday in favor of the President's reconstruction policy; but it is known that the published statement was furnished by a prominent member of the Cabinet.

Another death from cholera in the Hospital Ship is reported, but no new cases. There are yet one hundred patients on board the Hospital Ship. The Health Officer asserts that the passengers might safely be allowed to come to the city.

A woman named Mrs. Jenkins died on Third Avenue, between Ninety-second and Ninety-third.

FROM WASHINGTON.

WASHINGTON, May 2.—A General Order has just been issued from the War Department, in relation to trials by Military Courts and Commissions, stating: whereas some military commanders are embarrassed by doubts as to the operations of the Proclamation of the President, dated the 2nd day of April, 1866, upon trials by Courts Martial for military offenses,

to remove such doubts it is ordered by the President that hereafter, where offenses are committed by civilians, they are to be tried by civil tribunals, where they are in existence, and are not authorized to be, and will not be permitted to be brought before Military Commissions, but will be committed to the civil authorities. This Order is not applicable to camp-followers, as provided by the 60th Article of War, or to contractors and others, as specified in Section 16 of the Act of July, 1862.

FROM BALTIMORE.

BALTIMORE, May 1.—The Nineteenth Annual Session of the American Association was held at 11 o'clock this morning, in the Concordia Buildings. About two hundred delegates were present. Mr. N. H. Storer, of Boston, the President elected last year, occupied the chair; Vice-President Dr. Dunn, Albany, and Hippien, and Secretary Dr. Wm. B. Atchinson, of Philadelphia, and L. Morgan, of Baltimore, presided. The ex-President and Vice-President of the Convention were invited to seats on the platform.

The President called the meeting to order, and in response to his suggestion, Dr. C. C. Cox, Chairman of the Committee of Arrangements, welcomed the members to the hospitality of Baltimore, trusting that when leaving they might bear with them many pleasant reminiscences of the Monumental City.

Dr. Montrose A. Patton, who last year was expelled from the Association, was unanimously reinstated, having been fully exonerated by the Committee to which the papers in his case were referred. Dr. Patton was conducted by Dr. Cox, Orrway and Sayre to the platform amid great applause and assent, himself much gratified at the action of the Association. The greatest enthusiasm and unanimity prevailed.

It appears that the postages on the European fiscal year amounted to \$1,449,000, of which the United States Postoffice received only \$165,000, the balance accruing to foreign steamers.

A bill will probably be reported establishing a weekly line of Mail steamers to Europe, with the rate of compensation based on the probable postal receipts, and in no event to exceed them.

The Department of State is in receipt of news from Europe, which renders war extremely improbable between Austria and Prussia. The conduct of the latter power is generally appreciated. The Queen of England has written a letter to that Government expressing its disapprobation of its bearing in the diplomatic intercourse with Austria, and strongly counseling peace.

The Times's special says there is further talk to-day of a motion in the Senate to expel Senator Davis, of Ky., from that body, on account of sentiments uttered by him on the 6th of last month, before referred to, and which Senator Howard denounced yesterday as revolutionary and treasonable.

The Tribune's special says the Committee on Foreign Relations have agreed to report adversely upon the case of Mr. Smith, of Kansas, nominated as Minister to Greece, on the recommendation of Senator Lane, of Kansas.

Lewis D. Campbell, nominated as Minister to Mexico, it was agreed should be reported to the Senate without any recommendation, pro or con, the committee being a tie on the matter.

CINCINNATI, May 2.—The Seventh Regiment, National Guards, were mustered out of the service yesterday.

ADDITIONAL RIVER ITEMS.

CINCINNATI, May 2.—P. M.—The river has fallen 30 inches. The weather is clear; thermometer 66°.

The J. P. Webb arrived from Nashville with a splendid trip. She will return to Nashville on Friday, and we hope to see her go out full. The Argosy did not return to Nashville, as we were led to suppose. Having lost her way she has gone to the Wabash—having come direct from Nashville hither—to kill time, and get back on her own day, which is Tuesday.
